Greg and Sandy Scott  
Greg Scot Constructions

Dear Greg and Sandy,

Now that almost a year has passed since your work on our home I thought I would let you know how things are going with the property.

The home has had a number of construction exercises performed on it in recent years. Looking around now your workmanship and attention to detail stands out. There are signs of movement around the older work which are not evident anywhere around the work you and your team performed

The new bathroom is a dream and every morning standing in the shower I thank you for your efforts in giving us both space and light in such a small area.

We would like to thank you for the effort and interest both Sandy, you and your team put into helping us fix up our Californian Bungalow and helping us keep it within its original design intents.

Your professionalism, attention to detail and preparedness to solve problems and intention to help make our vision a reality are fantastic.

We wish you much success with your future projects.

Thank You

Yours Sincerely,

A handwritten signature in black ink, appearing to read 'DSB', enclosed in a light grey rectangular box.
