

31st July 2009

To Whom It May Concern

**TECHNICAL REFERENCE:
Greg Scott Constructions
21 Stroma Avenue
North Balwyn
Victoria 3104**

I have no hesitation in providing a Technical Reference for Greg Scott, of Greg Scott Constructions.

Greg Scott and his dedicated staff are currently undertaking a residential building project in conjunction with Kennedy Nolan Architects which is due for completion in October 2009.

Details of this project are as follows:

- Residential alterations and additions.
- at 33 Hickford Street, Brunswick East.
- The contract value for this project is \$369,429.50.
- Kennedy Nolan is the design and documentation Architect and has acted as Architect administering an ABIC SW2 contract.
- Completion is due for 24th September 2009.

Greg Scott Constructions also successfully completed a project with us last year. Details of this project are as follows:

- Residential alterations and additions.
- at 11 Laver Street, Kew.
- The contract value for this project was \$580,833.55.
- Kennedy Nolan was the design and documentation Architect and acted as Architect administering an ABIC SW2 contract.
- Completed 2nd July 2008.

Due to the quality of building and the professional manner in which Greg Scott Constructions have operated in the above project and their competency to work to a contract amount we would have no hesitation in using them for future projects.

In my professional opinion Greg Scott Constructions are well suited to also undertaking commercial work. I have no hesitation in supporting their application for a commercial Builder's license and am happy to be contacted directly to support this recommendation.

Yours sincerely

Patrick Kennedy
